

SQL Learning Journal #1

Basic SQL Concepts and the SELECT Statement

Yildirim Gunes, PhD
Academic Learning Notes
July 19, 2026

Introduction

Today I started learning SQL as part of my Data Analytics learning journey.

Basic Concepts

Data are stored in databases composed of tables containing rows and columns. Relational databases consist of related tables.

SQL Commands Learned Today

SELECT, AS, DISTINCT, CREATE VIEW, LIMIT (PostgreSQL), TOP (SQL Server).

What I Learned Today

Today I learned the fundamental concepts of SQL and relational databases.
